A solution that works...

MARCH 2006

PROJECT ON THE CRITICAL PATH

Medical Center of the Rockies J.E. Dunn Construction

Medical Center of the Rockies

Project Value: \$180 Million
Project Start Date: March 2004
Project End Date: January 2007

Medical Center of the Rockies, located in Loveland, Colorado, is a five-story, 570,000 square foot hospital. This medical center will house 136 private patient rooms with guest beds, a heart surgery center, a cardiology center, a regional trauma center, an obstetrics department, and a well-baby nursery; plus pediatrics and medical units. The center is built upon a 91 acre campus leaving room to expand.

SCHEDULING CONSULTANTS NEWS

Mike Ragan was recently hired as SCL's new Vice President. Mike has over 15 years of Industrial, Institutional, & Commercial Construction experience. He has worked on various projects emphasizing planning and scheduling, field progression, project cost control, cost analysis, trend analysis, expediting, and change order management. Prior to joining SCL, Mike served as a Planner/Scheduler for Haselden Construction, Inc, where he was responsible for all Pre-Construction and Construction schedules on a multi-project level. SCL is excited to have him, along with his work experience, to better serve our clients.
